

October Surprise Series

The latest evidence of a history-changing Republican dirty trick in 1980 and its precursor in 1968. (For earlier articles about the October Surprise mystery, go to “Archives” at the Home Page and click on “October Surprise X-Files.”)

Lost History of Iran’s 1981 Coup

The U.S. mainstream media avoids the word “coup” when a disfavored leader is ousted, but the silence around Iran’s 1981 coup also may have served Ronald Reagan’s political self-interest in keeping secret his own “coup,” as Mahmood Delkhasteh reflects.

Bush-41’s October Surprise Denials

“Deny everything,” British traitor Kim Philby said, explaining how the powerful can bluff past their crimes, a truism known to George H.W. Bush when he denied charges of his own near treason in the October Surprise case, writes Robert Parry. April 6, 2016. For an exclusive interview of Robert Parry discussing this article, [click here](#). April 8, 2016.

When Israel/Neocons Favored Iran

The modern history of U.S.-Israeli-Iranian relations dates back 35 years to a time of political intrigue when Israel’s Likud leaders and the Reagan administration’s neocons secretly worked to arm Iran’s radical regime, an inconvenient truth given today’s anti-Iran hysteria, writes Robert Parry. July 28, 2015.

Failing to Hide Israel-Iran-Iraq Secrets

Many Americans think secret U.S. documents become public after, say, 30 years, but many are hidden indefinitely to conceal inconvenient truths that could enlighten public debate, as Robert Parry discovered in getting a redacted version of a “top secret” paper from 1981 that he had already found in unredacted form. May 11, 2015.

Saddam’s Green Light

An article from the first investigative series published at Consortiumnews in early 1996 revealed top-secret “[talking points](#)” used by Secretary of State Haig in 1981 to brief President Reagan about the Middle East, including an alleged U.S. “green light” for Iraq to invade Iran. Journalist Robert Parry found the document in old congressional files. Republished May 11, 2015.

The US-Israel-Iran Triangle’s Tangled History

Iran and world powers have gone into double-overtime in negotiations to ensure that Iran doesn’t build a nuclear bomb, but the shadow over the talks is

darkened by decades of distrust and double-dealing, a dimly understood history of the U.S.-Israeli-Iranian triangle, reports Robert Parry. April 2, 2015.

LBJ's 'X' File on Nixon's 'Treason'

The letter to Iran from 47 Republican senators, seeking to kill President Obama's talks on limiting Iran's nuclear program, recalls other GOP sabotage of foreign policy by Democratic presidents, including Richard Nixon's scheme to stop a Vietnam peace deal in 1968, as Robert Parry wrote in 2012.

Ben Bradlee's Not Such 'A Good Life' – Part 2

In recent years, the *Washington Post's* emergence as a neocon propaganda sheet has struck some as a betrayal of the *Post's* earlier reputation as a serious newspaper. But many of the paper's current tendencies can be traced back to its iconic editor Ben Bradlee, writes James DiEugenio in Part 2 of this series. March 10, 2015.

How Roy Cohn Helped Rupert Murdoch

Through Fox News and a vast media empire, Rupert Murdoch wields enormous political clout in the United States, but his entrée into the world of Washington power came from the notorious McCarthyite Roy Cohn who opened the door into Ronald Reagan's Oval Office, reports Robert Parry. January 28, 2015.

The Sorry Record of a Muslim-Basher

Jumping on the Muslim-bashing bandwagon, Fox News' commentator Steven Emerson claimed Muslims have seized control of parts of London and all of Birmingham, terrorizing non-Muslims to flee, claims so absurd that even he was forced to back-track, reports Robert Parry. January 12, 2015.

An Insider's View of Nixon's 'Treason'

A recently released oral history by one of President Nixon's secretive operatives sheds new light on perhaps Nixon's darkest crime, the sabotaging of Vietnam peace talks so he could win the 1968 election, writes Robert Parry. July 5, 2014.

Reagan-Bush Ties to Iran-Hostage Crisis

The Senate wants to block Iran's new UN ambassador because he was linked to the Iran hostage crisis 35 years ago, but that standard would strip honors from Ronald Reagan and George H.W. Bush, implicated in extending the hostage crisis to win the 1980 election, reports Robert Parry. April 9, 2014.

Firewall: Inside the Iran-Contra Cover-up

The death of Iran-Contra special prosecutor Lawrence Walsh on Wednesday at the age of 102 marked the passing of what is now rare in the American Establishment,

a person who courageously fought for a truthful historical record, as Robert Parry explained in this 1997 review of Walsh's memoir, *Firewall*. March 21, 2014.

The Best and Worst US Presidents

From the start of the Republic, some U.S. presidents favored government activism to address the nation's problems, while others let the states do what they wanted and business tycoons have their way, a distinction that Robert Parry says can define the best and worst. February 18, 2014.

A Blind Eye to LBJ's 'X-File'

President Lyndon Johnson's legacy is in the news whether his many domestic achievements should outweigh his disastrous escalation of the Vietnam War but no attention is being paid to evidence that LBJ might have ended the war if not for Richard Nixon's sabotage, writes Robert Parry. April 11, 2014

Reagan-Bush Ties to Iran-Hostage Crisis

The Senate wants to block Iran's new UN ambassador because he was linked to the Iran hostage crisis 35 years ago, but that standard would strip honors from Ronald Reagan and George H.W. Bush, implicated in extending the hostage crisis to win the 1980 election, reports Robert Parry. April 9, 2014

Robert Strauss's Watergate Secret

Robert Strauss, who died Wednesday, was a Democratic powerbroker who thrived in the age of Nixon, Reagan and Bush-41. But an enduring Watergate mystery is whether Strauss earned his GOP spurs by secretly helping the Republicans in the spy scandal, reports Robert Parry. March 20, 2014

Does Nixon's 'Treason' Boost LBJ's Legacy?

The Vietnam War has doomed President Lyndon Johnson to a lowly status among presidents, overshadowing his domestic successes. But LBJ's ranking might change if the new evidence on Richard Nixon sabotaging LBJ's Vietnam peace talks were factored in, writes Robert Parry. February 16, 2014

Robert Gates Double-Crosses Obama

Former Defense Secretary Robert Gates is slamming President Obama in a new memoir, accusing him of lacking enthusiasm for the Afghan War. But perhaps Obama's bigger mistake was trusting Gates, a Bush Family operative with a history of dirty dealing, writes Robert Parry. January 8, 2014

Judge Leon's Dirty Climb to the Bench

Civil libertarians are cheering federal judge Richard Leon for his ruling against the NSA's massive surveillance program and that's all to the good but Leon's route to the bench followed a twisted course of partisan investigations and one historic cover-up, Robert Parry reports. December 17, 2013

Almost Thwarting Nixon's Dirtiest Trick

In 1968, the public anger over the Vietnam War tempted GOP presidential nominee Richard Nixon to sabotage Democratic peace talks to seal his victory, a dirty trick that Saigon-based journalist Beverly Deepe nearly exposed before American voters went to the polls. November 22, 2013

Dangerous Addiction to Secrecy

After decades of mutual suspicions, the U.S. and Iranian governments appear headed toward face-to-face contacts. But mutual trust still awaits truth-telling about important facts that defined the relationship – and that may require breaking a dangerous addiction to secrecy, says Robert Parry. September 24, 2013.

A CIA Hand in an American 'Coup'?

The U.S. government decries leaks, but the other side of the story is that key chapters of American history are hidden from the public for decades and maybe forever. The CIA has just admitted its 1953 Iran coup and may never acknowledge a role in ousting Jimmy Carter in 1980, Robert Parry reports. August 26, 2013

Scooping 'the Boys' of Vietnam Press

During her seven years covering the Vietnam War, Beverly Deepe Kever broke through the male-dominated world of war reporting and nearly changed history with her discovery that Richard Nixon's 1968 campaign was sabotaging the Paris peace talks, notes Don North in his review of her memoir. July 30, 2013.

Cables Hold Clues to US-Iran Mysteries

Iran's election of Hassan Rowhani as president has raised hopes for a deal, with Iran accepting tighter constraints on its nuclear program and the West rolling back sanctions. But there has been a long and often secret history of double-dealing between Iran and the U.S., Robert Parry reported in 2010.

Republished June 21, 2013.

Second Thoughts on October Surprise

New evidence has shaken the confidence of former Rep. Lee Hamilton in his two-decade-old judgment clearing Ronald Reagan's 1980 campaign of going behind President Carter's back to frustrate his efforts to free 52 U.S. hostages in Iran, the so-called October Surprise case, Robert Parry reports. June 8, 2013

What a Real Cover-up Looks Like

Republicans won't let go of their conspiracy theory about some nefarious "cover-up" in "talking points" for Ambassador Susan Rice's TV interviews on the Benghazi attack. But they should at least have better skills for detecting a real cover-up, since they've had direct experience, as Robert Parry documents. May 21, 2013

Does Woodward Know Watergate?

Republicans are hyping the flap over Benghazi talking points by calling it “worse than Watergate,” a false narrative that Bob Woodward has helped along by ignoring new evidence connecting Richard Nixon’s sabotage of Vietnam War peace talks in 1968 to his political spying in 1971-72, writes Robert Parry. May 20, 2013

The Right’s ‘Scandal’ Funhouse Mirror

Official Washington is captivated by the image of Obama “scandals,” including Benghazi talking points and extra IRS questions posed to Tea Party groups, but journalists are peering into the Right’s funhouse mirror which for decades has made big scandals small and small scandals big, says Robert Parry. May 14, 2013.

Republican Hypocrisy on Benghazi

Official Washington is obsessing over the Benghazi “scandal,” proof that the Republicans and their right-wing media can make the smallest things big and the biggest things small. It is a disparity that has distorted how Americans understand their recent history, writes Robert Parry. May 10, 2013.

Another Ignored Russian Warning

One year after the Cold War ended, Russia tried to cooperate with a U.S. national security investigation into possible treason by senior American officials only to see the information ignored. Two decades later, Russians feel their warning about a Boston Marathon bomber was ignored again, Robert Parry reports. April 23, 2013.

What Happened to the US Press Corps?

As the U.S. observes the tenth anniversary of the Iraq invasion, a key question remains: Why was there almost no accountability for journalists and pundits who went along with George W. Bush’s deceptions. The answer can be found in the cover-ups of the Reagan-Bush-41 era, writes Robert Parry. March 18, 2013

The GOP Knows Power

Today’s Republican Party doesn’t believe in democracy, at least not when an election is decided by the votes of blacks, Hispanics, Asian-Americans and young urban whites comfortable with multiculturalism. Then, the outcome is deemed illegitimate and deserves obstruction, as Robert Parry explains. March 14, 2013

Rethinking Watergate/Iran-Contra

New evidence continues to accumulate showing how Official Washington got key elements of the Watergate and Iran-Contra scandals wrong, especially how these two crimes of state originated in treacherous actions to secure the powers of the presidency, writes Robert Parry. March 9, 2013

'October Surprise' and 'Argo'

Iran's ex-President Bani-Sadr, in criticizing inaccurate history in "Argo," says most Iranian officials wanted a quick end to the 1980 U.S.-Iranian hostage crisis, but Ronald Reagan's presidential campaign struck a deal with Ayatollah Khomeini to delay the hostages' release, reports Robert Parry. March 7, 2013

The Short-Sighted History of 'Argo'

The Oscar for Best Picture went to Ben Affleck's *Argo*, an escape-thriller set in post-revolutionary Iran. It hyped the drama and edged into propaganda. But Americans would have learned a lot more if Affleck had chosen the CIA coup in 1953 or the Republican chicanery in 1980, says Robert Parry. February 25, 2013

Waking Up to Iran's Real History

An Oscar frontrunner for best picture is "Argo," depicting a little-known chapter of the U.S-Iran hostage standoff in 1979-81. Yet, while focusing on this story of six hostages escaping, "Argo" missed bigger dramas, before and after, as David Swanson explained. January 11, 2013

The L'Enfant Plaza Hotel Mystery

To understand why U.S. foreign policy is floundering in the Middle East, one must go back to the pivotal 1980 election when President Carter's hopes for a second term hinged on getting Iran to release 52 U.S. hostages and Republicans went behind his back, writes Robert Parry. February 17, 2013

How Neocons Messed Up the Mideast

Newly available documents reveal how Ronald Reagan's neocon aides cleared the way for Israeli arms sales to Iran in 1981, shortly after Iran freed 52 U.S. hostages whose captivity doomed Jimmy Carter's reelection. The move also planted the seeds of the Iran-Contra scandal, reports Robert Parry. February 15, 2013

Richard Nixon's Even-Darker Legacy

Richard Nixon, who was born a century ago, cast a long shadow over U.S. politics, arguably reaching to the anything-goes tactics of today's Republican Party. His admirers want to reverse history's negative judgment but perhaps the Nixon centennial can finally allow for recognition of Nixon's dirtiest trick, says Robert Parry. February 2, 2013

America's War for Reality

The United States has been on a three-decade binge of unreality, imbibing delusions that began with Ronald Reagan and have continued through the Tea Party. The challenge now is for rational Americans to show they have the toughness and tenacity to fight for the real world – and to save it, writes Robert Parry. January 15, 2013

America's Bloody Price for Power

"The Untold History of the United States" shakes up the traditional recounting of the last century, forcing Americans to rethink key assumptions, but director Oliver Stone and historian Peter Kuznick have not written a people's history, says Jim DiEugenio in part two of his review.

Who Bombed Ben-Menashe's House?

Montreal police may hope to just nail the "torch," the culprit who hurled a fire-bomb into the home of ex-Israeli spy Ari Ben-Menashe. But to solve the mystery, they may have to delve into Ben-Menashe's complex intelligence ties, including his hostile relations with his old superiors in Israel, writes Robert Parry. December 8, 2012

Ben-Menashe Case Eyes Bomb Residue

The investigation of the firebombing of the upscale Montreal home of ex-Israeli intelligence officer Ari Ben-Menashe is looking at the possibility the accelerant was more sophisticated than available to common criminals, reports Robert Parry. December 5, 2012

Arson Seen in Attack on Ex-Israeli Spy

Suspected arson destroyed the Montreal home of ex-Israeli intelligence officer Ari Ben-Menashe, who says he escaped through a rear door. It's unclear if the fire was an assassination attempt to finally silence a man who has angered the Israeli government, powerful Republicans and others, writes Robert Parry. December 3, 2012

How Israel Out-Foxed US Presidents

Just days after President Obama's reelection, Israel launched a punishing bombing campaign against Palestinians in Gaza much as Israel did shortly after his election in 2008. Obama again is put in a tight spot, but other U.S. presidents faced similar challenges, as Morgan Strong reported in 2010. Republished November 19, 2012

The Death Toll of Watergate

Major gaps in the history of Watergate and Iran-Contra have let Republicans minimize those scandals by comparing them to the fabricated "scandal" over the Benghazi attacks. A fuller understanding of Watergate would reveal its links to Richard Nixon's prolonging the Vietnam War, writes Robert Parry. November 17, 2012

The Price of Political Purity

War with Iran is on the Nov. 6 ballot with President Obama on the verge of a peace deal and Mitt Romney favoring confrontation. The choice is like 1968 when many on the Left distrusted President Johnson's Vietnam peace promises and

enabled Richard Nixon to extend the war four years, Robert Parry noted last June. Republished October 29, 2012

The October Surprise Mysteries

With hopes brightening that President Obama is close to a negotiated settlement of the Iran nuclear dispute, Mitt Romney's campaign is eager to counter any positive news. The moment is reminiscent of past October Surprise moments, says Robert Parry in this article adapted from America's Stolen Narrative. October 22, 2012

An Israeli October Surprise for Obama?

A pressing foreign policy question of the U.S. presidential race is whether Israel might exploit this politically delicate time to bomb Iran's nuclear sites and force President Obama to join the attack or face defeat at the polls, a predicament with similarities to one President Carter faced in 1980, writes Robert Parry. August 18, 2012

Bohemian Grove & Reagan's 'Treason'

This weekend, Occupy protesters are targeting the Bohemian Grove in California, where well-connected rich men go on retreats several weekends each summer. The secrecy of the 1980 encampment became a factor in the cover-up of possible "treason" by Ronald Reagan and George H.W. Bush, writes Robert Parry. July 13, 2012

Shamir's October Surprise Admission

Two decades ago, ex-Israeli Prime Minister Yitzhak Shamir offered the stunning confirmation that "of course" an October Surprise plot had blocked President Jimmy Carter from gaining the release of 52 U.S. hostages in Iran, thus helping Ronald Reagan win the presidency in 1980, reports Robert Parry. July 3, 2012

Admissions on Nixon's 'Treason'

Definitive proof of a historical mystery is often elusive, even with archival documents and memoirs. Skeptics can always say some witness or some evidence isn't perfect. But the case that Richard Nixon sabotaged the Vietnam peace talks in 1968 to win that pivotal election is clear, writes Robert Parry. June 14, 2012

The Dark Continuum of Watergate

The 40th anniversary of the Watergate break-in has brought reflections on the scandal's larger meaning, but Official Washington still misses the connection to perhaps Richard Nixon's dirtiest trick, the torpedoing of Vietnam peace talks that could have ended the war four years earlier, Robert Parry reports. June 12, 2012

The Almost Scoop on Nixon's 'Treason'

At the end of Campaign 1968, as Richard Nixon feared his narrow lead could disappear if progress were made on Vietnam peace, a U.S. correspondent in Saigon got wind of a cabal between Nixon and South Vietnamese leaders to block peace talks and secure his victory. History was at a crossroads, writes Robert Parry. June 7, 2012

Obama Gets Tough, Finally

President Obama looks ready for a political fight, telling his supporters "Let's go get 'em. It's game time." But is the U.S. political/media system ready for a Democrat turning the tables on the Republicans in terms of toughness after decades of Republicans playing the bullies asks Robert Parry. May 7, 2012

How the Right's Smear Machine Started

The Right's attack machine, which these days questions President Obama's birthplace and smears Georgetown student Sandra Fluke over contraceptives, arose in the wake of the Vietnam War and Watergate with young conservatives thinking they were the real victims, thus justifying whatever they did, reports Robert Parry. March 8, 2012

An Israeli October Surprise on Obama?

President Obama is walking a political tightrope between constraining Iran's nuclear program and restraining Israel's war threats, while political critics are shaking the supports. But ex-CIA analyst Paul R. Pillar says Obama's predicament may be even trickier, with Israeli hardliners possibly eyeing an October surprise. March 7, 2012

Romney's Made-up History on Iran

In facing down Iran as U.S. president, Mitt Romney says he would be guided by the experience of Ronald Reagan threatening Iran with a military strike if it didn't free 52 Americans held hostage during Jimmy Carter's presidency. But Romney's historical precedent is a fantasy, writes Robert Parry. March 6, 2012

Profiting Off Nixon's Vietnam 'Treason'

The notion of Wall Street bankers meeting in private to discuss profiting off a plot to extend the Vietnam War and risk the lives of thousands of American soldiers may sound like a conspiracy movie script, but it is a tragic reality reflected in once secret White House documents, reports Robert Parry. March 4, 2012

LBJ's 'X' File on Nixon's 'Treason'

In the dusty files of Lyndon Johnson's presidential library in Austin, Texas, once secret documents and audiotapes tell a dark and tragic story of how Richard Nixon's team secured the White House in 1968 by sabotaging peace talks that

might have ended the Vietnam War four years earlier, Robert Parry reports. March 3, 2012

The Almost Vanunu

Two decades ago, the U.S. and Israeli governments reached around the world to silence an ex-Israeli intelligence officer who was exposing sensitive secrets. The goal was to discredit, if not capture, Ari Ben-Menashe much the way Israel went after nuclear whistleblower Mordechai Vanunu, reports Marshall Wilson. February 1, 2012

Getting Rid of 'Anti-Israel' Presidents

Some staunch supporters of Israel believe that its interests are so compelling that they trump American self-governance, with one extremist suggesting the murder of President Obama. Others, however, appear to have joined in an earlier subversion of U.S. democracy, Robert Parry reports. January 21, 2012

Herding American's to War with Iran

The murder of a fifth Iranian scientist on the streets of Tehran had all the earmarks of an Israeli-sponsored assassination. The killing also worsened tensions at a moment when the momentum toward war with Iran seems unstoppable, reports Robert Parry. January 12, 2012

Republican Tradition of Hostage-Taking

Since the days of Richard Nixon, Republicans have pursued an anything-goes brand of politics that often has the look of hostage-taking, with Democrats usually caving in. But, Robert Parry asks, has President Obama finally learned that the only way to stop bullying is to stand up to it? December 23, 2011

The Lost Opportunity of Iran-Contra

A quarter century ago with the breaking of the Iran-Contra scandal, the United States had a chance to step back from its march toward Empire and to demand accountability for White House crimes. But instead a powerful cover-up prevailed, reports Robert Parry. December 1, 2011

Who is Judge Richard Leon?

The appointment of federal judges is a key power of the U.S. president. It can reward partisan allies for past services and ensure favorable rulings in the future. Both factors were in play for District Judge Richard Leon who just struck down new cigarette warnings, writes Robert Parry. November 9, 2011

The GOP's History of 'Hostage-Taking'

For more than four decades, Democrats have tolerated Republican abuses, claiming accountability wouldn't be "good for the country." But this softness has only encouraged the kind of hardball behavior that has now taken the U.S. economy

“hostage,” writes Robert Parry. November 6, 2011

Unmasking October Surprise Debunker

The fake “debunking” of the 1980 October Surprise case in the early 1990s was driven by a few “journalists,” including Steven Emerson, who has been identified in a recent report as a “misinformation expert” spreading anti-Muslim propaganda, reports Robert Parry. October 30, 2011

Taking a Bush Secret to the Grave

The National Archives has approved an appeal by journalist Robert Parry seeking release of a 30-year-old secret, the address where George H.W. Bush supposedly went on an October weekend in 1980, when several witnesses put Bush in Paris meeting with Iranians. But it turns out the “alibi witness” is now dead. September 27, 2011

Bush’s October Surprise File in Dispute

The enduring October Surprise mystery whether Ronald Reagan’s 1980 campaign sabotaged President Jimmy Carter’s efforts to free 52 American hostages in Iran has reached a possible turning point, whether details of George H.W. Bush’s activities on a key day will be released, reports Robert Parry. September 9, 2011

Keeping a Curious Bush Secret

One of the strange mysteries from the Reagan-Bush era is where did George H.W. Bush go on one Sunday in October 1980 when some witnesses placed him meeting with Iranians in Paris. More than three decades later, Bush’s supposed alibi remains a state secret, Robert Parry reports. August 12, 2011

October Surprise Evidence Surfaces

Among newly released archival records is the first U.S. documentary evidence that William Casey took a trip to Madrid possibly related to the 1980 October Surprise conspiracy. Doubts that Ronald Reagan’s campaign chief went to Madrid fueled a media frenzy in 1991 to debunk allegations of a secret GOP deal with Iran, says Robert Parry. July 14, 2011

Inside the October Surprise Cover-up

The George H.W. Bush Library in Texas has just released thousands of pages of documents on the October Surprise mystery, revealing how Bush’s inner circle handled allegations that the Reagan-Bush campaign in 1980 struck a treacherous deal with Iran. It was a textbook case of controlling the narrative, reports Robert Parry. July 12, 2011

Bachmann’s Aide Hides \$10M Secret

When Rep. Michelle Bachmann landed Ed Rollins as her campaign manager, the move

gave a shot of credibility to her presidential bid. Washington pundits adore Rollins and his blunt style, so much so that they have ignored the fact that he is still covering up an illegal \$10 million suitcase full of cash from Philippine dictator Ferdinand Marcos, Robert Parry reports. July 10, 2011

Bob Gates's 'Business' of Lying

As Defense Secretary Robert Gates prepares to retire in late June, he is routinely lauded as a "wise man" committed to telling it like it is, even making a frank comment this week about how "most governments lie to each other." But Gates's own record for honesty is a deeply checkered one, reports Robert Parry. June 17, 2011

Netanyahu Sets Limits for Obama

President Barack Obama got an Oval Office lecture from Israeli Prime Minister Benjamin Netanyahu about how far Obama may deviate from Israel's positions on Mideast peace. This public rebuke raises questions about whether Netanyahu will now try to sink Obama's reelection the way earlier Likud leaders undermined President Jimmy Carter, reports Robert Parry. May 21, 2011

Jimmy Carter's October Surprise Doubts

Ex-President Jimmy Carter tells an interviewer that he isn't sure what to believe about the longstanding suspicions that Republicans went behind his back in 1980 to stop him from freeing 52 American hostages in Iran, a failure that contributed to his political demise. But Robert Parry reports that there is a wealth of historical evidence. May 12, 2011
