MEMORANDUM FOR THE SECRETARY OF STATE
THE SECRETARY OF DEFENSE
THE DIRECTOR OF CENTRAL INTELLIGENCE
CHAIRMAN, JOINT CHIEFS OF STAFF
ADMINISTRATOR, AGENCY FOR INTERNATIONAL DEVELOPMENT
DIRECTOR, UNITED STATES INFORMATION AGENCY
CHAIRMAN, BOARD FOR INTERNATIONAL BROADCASTING

SUBJECT: Establishment of a Psychological Operations
Committee (U)

To implement NSDD 130, a Psychological Operations Committee (POC) will be created consisting of representatives from Defense, State, CIA, USIA, and other agencies when required. This Committee will be chaired by designated representatives of the Assistant to the President for National Security Affairs. (S)

NSDD 130 stressed the importance of psychological factors in maintaining the confidence of allied governments and in deterring military action against U.S. national interests. In order to employ psychological operations (PSYOP) effectively and economically, the POC shall establish national PSYOP guidelines, and define the roles and relationships of the agencies involved in PSYOP. NSDD 130 further stated that in order to be prepared for the immediate and effective use of PSYOP in crisis and wartime, it is vital that the Armed Forces maintain a strong and active international information capability; therefore, the POC shall ensure that the Department of Defense gives high priority to the revitalization and full integration of PSYOP in military operations and planning, and to promoting a funded PSYOP program. (S)

Crisis and wartime conditions impose special requirements on U.S. international information activities. The POC shall seek to ensure that in wartime or during crises (which may be defined as periods of acute tension involving a threat to the lives of American citizens or the imminence of war between the U.S. and other nations), U.S. international information elements are ready to initiate special procedures to ensure policy consistency, timely response and rapid feedback from the intended audience. The agencies represented on the POC should review and, as necessary, develop procedures for their operations during crises. (S)

NSDD 130 also directs the Department of Defense, with appropriate interagency cooperation and in accordance with national law and policy, to participate in PSYOP programs in peacetime. Department of Defense participation in other international information

activities shall continue to be under the SPG which should take the lead in developing coordinated interagency plans, including the utilization of DOD capabilities, for such activities in support of national security objectives. When appropriate and required, the POC shall work with the SPG in coordinating PSYOP with other international information activities. (S)
